Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on June 7, 1983, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,386,437 through 4,387,470
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:
By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:
By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Establishing Common Ownership of Patent Applications and/or Patents Owned by a Corporation or Other Organization

This notice is intended to simplify the practice of establishing common ownership of patent applications and/or patents in circumstances where the common owner is a corporation or other organization. Under 37 CFR 1.104(e), in order to establish common ownership "[i]n circumstances where the common owner is a corporation or other organization an affidavit or declaration may be signed by an official of the corporation or organization empowered to act on behalf of the corporation or organization." A mere power of attorney to prosecute a patent application does not make an individual an official of a corporation or organization or empower the individual to act on behalf of the corporation or organization in making an affidavit or declaration averring to common ownership. However, such an affidavit could be made by a patent attorney, patent agent, or other individual if the attorney, agent, or other individual has been appointed in writing by the corporation or organization as an official of the corporation or organization specifically empowered to make affidavits or declarations on its behalf averring to common ownership. In circumstances where such a written appointment has been given to a patent attorney, patent agent, or other individual, that person could then make affidavits or declarations averring to common ownership as long as the affidavit or declaration referred to an attached copy of the written appointment and averred that the authority is still in effect. Under this practice the original signed copy of the written appointment would be retained by the affiant or declarant unless the Patent and Trademark Office specifically required it to be filed. Unless some question arose as to the authority of the individual to make the averment as to common ownership, the Patent and Trademark Office would ordinarily not need to require the original signed copy of the written appointment. While this practice should simplify the establishing of common ownership by necessitating only one original signed written appointment, corporations and other organizations must exercise care that the written appointment is only given to those persons who are in a position to know that common ownership does in fact exist and can therefore properly make affirmative representations to that effect to the Patent and Trademark Office.

State of Wisconsin
Circuit Court
La Crosse County

STATE OF WISCONSIN,
Plaintiff,

v. COMPLAINT
Case No. 84-CV-541

INVENTION MARKETING, INC.,
a Pennsylvania corporation,
and MARTIN S. BERGER,
individually and as an
officer and agent of the
corporation,
Defendants

The State of Wisconsin, by its attorneys, acting on behalf of the Wisconsin Department of Justice, brings this action against the defendants herein and complains and alleges as follows:

Jurisdiction

1. This claim for relief is filed pursuant to section 100.18(11)(d), Stats., to prevent and restrain violations of sec. 100.18(1), Stats., and to obtain restoration of pecuniary losses suffered by Wisconsin citizens as a result thereof, and pursuant to sec. 100.26(4), Stats., to recover civil forfeitures for violations of sec. 1001.18(1), Stats.

The Defendants

2. Defendant Invention Marketing, Inc., is a Pennsylvania corporation, and is located at the Triangle Bldg., 701 Smithfield St., Pittsburgh, Pa. 15222.

3. Defendant Martin S. Berger, an adult male, is the president and owner of Invention Marketing, Inc.; in such capacity, he has taken part in the formulation, direction and control of the acts and practices of said business operation.

4. Whenever in this complaint reference is made to any action of either of the defendants, or to any action of any one of the agents, employees, salesmen, or representatives of either of the defendants, such allegation shall be deemed to mean that such action was taken with the knowledge and consent of each of the defendants and was taken pursuant to a common scheme or plan.

5. Plaintiff is informed and believes that other individuals, companies or corporations have participated or are participating in the illegal practices or activities complained of herein. Such persons, companies or corporations may be joined in this action when their identity and the degree of their participation in the practices and activities have been ascertained.

Nature of Defendants' Business

6. The defendants have been engaged in an operation throughout the United States, including the State of Wisconsin, and the county of La Crosse, whereby customers are solicited to submit inventions to defendants, along with a prepaid fee, for the purpose of having defendants conduct a marketing feasibility study and development and execution of a marketing program.

7. Beginning at an exact date unknown, but at least since Oct. of 1979, defendants have operated their solicitation by initial contact through radio and magazine advertisements reaching citizens throughout the State of Wisconsin.

8. When a potential customer responds to some form of defendants' advertisements, that individual receives an informational packet describing defendants' operation and services. Examples are attached hereto as Exhibits A, B and C. The potential customer is requested to provide defendants with a description of his or her invention. Once this is done, telephone contact is made by representatives of defendants, who solicit potential customers to send defendants a fee for prepayment of an initial marketing analysis. A sample copy of the Evaluation Request agreement is attached hereto, and incorporated herein, as Exhibit D. This prepaid initial fee for Wisconsin consumers has ranged from $200.00 to at least $550.00

9. Thereafter, the consumer is provided with a marketing analysis of his or her invention and solicited to prepay an additional fee to defendants for the purpose of having defendants carry through with a marketing program for the consumer's invention. Defendants and the consumer enter into a Representation Agreement, an example of which is attached hereto, and incorporated herein, as Exhibit E. This prepaid fee for Wisconsin consumers has ranged from $1,350.00 to at least $5,295.00.

Misrepresentations Alleged

10. In the course of soliciting Wisconsin residents to purchase their services, the defendants, through written representations in their sales literature, and oral representations made by agents and representatives, have made untrue, deceptive and misleading representations and statements which are in violation of sec. 100.18(1), Stats., and are enjoinable pursuant to sec. 100.18(11)(d), Stats., such as the following:

a. That each idea submitted to them is innovative and marketable; in truth and in fact, most of the ideas submitted to them have already been patented or marketed or are not marketable.

b. That clients will realize large financial gains from marketing their inventions through defendants; in truth and in fact, few if any clients realize any financial gain from their association with defendants, but rather are financially injured at least to the extent of their investments with defendants.

c. That defendants have successfully marketed many new ideas when, in truth and in fact, few if any new ideas have been successfully marketed by defendants.

d. That defendants have successfully marketed the products pictured in their multicolored advertising literature, when in truth and in fact, defendants were involved in marketing few, if any, of the items pictured.

e. That the fee for the marketing analysis would be the only fee involved in the program or that the second fee, for the marketing program, is nothing to worry about; in truth and in fact, whereas the initial fees have ranged from $200.00 to at least $550.00, the second fee, about which the consumer is often not informed until after investing the initial fee, has ranged from $1,350.00 to at least $5,295.00.

f. That the invention of each and every potential client is feasible to produce for marketing; in truth and in fact, defendants' production feasibility studies, if performed at all, are totally inadequate to provide the client with factual information.

g. That the invention of a potential client has been presented to the defendant company's board of directors whose reaction is so positive that the members thereof have expressed an eagerness to invest a large amount of the company's own money in marketing the potential client's invention, once he or she has entered into a contract with defendants. In truth and in fact, little, if any, of defendants' own money or company assets are ever utilized.

h. That fees for certain clients are reduced because their idea is so exciting and potentially marketable; in truth and in fact, fees are reduced in proporton to the difficulty of soliciting a potential client to enter into a contract with defendants.

i. That defendants will provide a wide range of marketing services to clients; in truth and in fact, the written contract obligates them to do nothing more than make an initial contact with industry, prepare a product submission brochure and register a new idea or inven-

tion with the United States Patent Office. All other services, as listed in advertising brochures or offered orally in sales pitches, are discretionary.

j. That defendants maintain a close working relationship with their clients; in truth and in fact, once the consumer has paid his full fee and entered into the marketing contract with defendants, calls from clients are often no longer accepted and written inquiries receive a form letter response.

k. That defendants will work with clients in developing and improving their ideas; in truth and in fact, once clients have paid their second fee, defendants are unresponsive to clients' suggestions for improvements of their invention.

l. That defendants will pay for patent protection when in truth and in fact, the registration with the United States Patent Office does not patent an invention and provides no patent protection.

Demand for Relief

WHEREFORE, the State of Wisconsin demands judgment against the defendants as follows:

1. That defendants, their successors, assignees and transferees, their agents, employees, representatives and all persons acting or claiming to be acting on their behalf, be perpetually enjoined and restrained, pursuant to sec. 100.18(11)(d), Stats., from conducting business operations in Wisconsin in violation of sec. 100.18(1), Stats., in the manner alleged herein.

2. That pursuant to sec. 100.18(11)(d), Stats., the court order the defendants to restore any pecuniary loss suffered by any person because of the defendants' acts and practices, involved in this action, in violation of sec. 100.18(1), Stats.

3. That the court order a civil forfeiture to the State of Wisconsin in the amount of not less than $50.00 nor more than $200.00 against each of the defendants for each adjudged violation of sec. 100.18(1), Stats., by each of said defendants, pursuant to sec. 100.26(4), Stats., together with a penalty assessment of twelve percent (12%), pursuant to sec. 165.87, Stats., for each such violation.

4. For such other and further relief as the court deems just and equitable.

5. For the costs and disbursements of this action.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
